

Waste Management Solutions

www.glasdon.com

Dog Waste Bins

To help keep pavements and open spaces clear of dog fouling, we produce a range of dog waste bins that are extremely strong and durable.

Designs are available for wall or post mounting and free-standing, to match your requirements and encourage owners to pick up after their dogs.

Fido 25™ Dog Waste Bin

DESIGN FEATURES

- Ultra-destruct 'Dog Waste Only' logo.
- Durapol™ liner.
- Wall mounting fixing kit.

OPTIONAL EXTRAS

- Choice of fixing options.
- Personalisation.
- Sack dispenser.

MATERIALS

Bin body: Duraplus™ material
Lid: Durapol material
Liner: Durapol material

SPECIFICATIONS

Capacity: 25 litres
Height: 570mm
Width: 380mm
Depth: 315mm
Weight: 3.7kg

COLOURS

Red, Deep Green.

Retriever 35™ Dog Waste Bin

DESIGN FEATURES

- Ultra-destruct 'Dog Waste Only' logo.
- Triangular DIN lock – key to open, slam to lock.
- Sack-retention system.
- Fixings for wall or post mounting.

OPTIONAL EXTRAS

- Choice of fixing options.
- Personalisation.
- Chute lock kit.
- Sack dispenser.

MATERIALS

Bin body: Durapol™ material
Chute & backbone: Mild steel with Armortec™ coating

SPECIFICATIONS

Capacity: 35 litres
Height: 674mm
Width: 450mm
Depth: 297mm
Weight: 7.1kg

COLOURS

Red, Deep Green.

Retriever City™ Dog Waste Bin

DESIGN FEATURES

- Integral dispenser allows only one sack to be taken at a time.
- Secure, tamper-resistant chute system.
- Extremely robust body and door.
- Clear graphics encourage correct use.
- Secure, vandal resistant locking mechanism.
- Door-opening design provides easy access for removal and replacement of sacks.
- Space-saving narrow footprint.

OPTIONAL EXTRAS

- Choice of fixing options.
- Personalisation.
- Base plate kit.
- Chute lock kit.
- Dog lead hook.

MATERIAL

Bin body & door: Durapol™ material

SPECIFICATIONS

Capacity: 35 litres
Height: 1142mm
Width: 439mm
Depth: 348mm
Weight: 14.1kg

COLOURS

Black (contains recycled material), Anthracite Grey, Red, Deep Green.

Retriever City™ Sack Dispenser

DESIGN FEATURES

- Slim, space-saving design, with no sharp edges.
- Robust back plate manufactured from steel with Armortec™ coating.
- Fixings for wall mounting.

OPTIONAL EXTRAS

- Choice of fixing options.
- Personalisation plate.
- Bio-degradable sacks.

MATERIALS

Door/Cover: Durapol™ material
Back Plate: Steel with Armortec™ coating

SPECIFICATIONS

Height (with extended base post): 1085mm
Width: 415mm
Depth: 190mm
Weight: 6.5kg

COLOURS

Black (contains recycled material), Anthracite Grey, Red, Deep Green.

Metal Fido 35™ & Metal Fido 50™ Dog Waste Bins

DESIGN FEATURES

- Robust metal construction.
- Two sizes available – a 35 litre model and a 50 litre model.
- Dog lead hook.
- 1.5mm steel with Armortec™ coating.
- Pivoting lid with lid stay.
- Sack retention system.

OPTIONAL EXTRAS

- Metal liner for Metal Fido 50.
- Choice of fixing options.

MATERIALS

Body & lid: Steel with Armortec coating
Sack Retention System: Stainless steel.

COLOURS

Red, Deep Green.

SPECIFICATIONS

	Metal Fido 35	Metal Fido 50

Retriever 50™ Dog Waste Bin

DESIGN FEATURES

- Ultra-destruct 'Dog Waste Only' logo.
- Choice of Durapol™ material chute or steel chute with Armortec™ coating.
- Internal fire shield (supplied as standard when Armortec coated steel chute is specified with steel liner).
- Triangular DIN lock – key to open, slam to lock.
- Mainbrace™ stainless steel backbone.
- Sack-retention system or zinc-coated steel liner.

OPTIONAL EXTRAS

- Choice of fixing options.
- Personalisation.

MATERIALS

Bin body & hood: Durapol material
Chute: Durapol material or steel with Armortec coating
Mainbrace backbone: Stainless steel
Sack retention system: Stainless steel
Liner: Zinc-coated steel

SPECIFICATIONS

Capacity: 50 litres (without liner)
Height: 725mm
Width: 500mm
Depth: 400mm
Weight: from 7.4kg
(Durapol chute
c/w sack retention)

COLOURS

Red, Deep Green.

Personalisation, Optional Extras & Fixing Options Guide

Add a unique touch to your Glasdon order with our Personalisation and Branding Service. From adding your organisation's logo or crest, right through to full graphic wraparounds, we have the in-house expertise to help you achieve the impact you require.

Glasdon High Performance Materials

Glasdon products are manufactured from high performance materials and undergo stringent quality checks to ensure durability and best value. We have accreditation with ISO 9001:2015, underlining our commitment to provide quality products.

Throughout this brochure reference is made to the following materials:

Armortec™ corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.

Duracore™ material features a tough outer wall of Durapol™ material with an internal reinforcing wall of cellular construction, which increases rigidity and offers outstanding performance benefits. Duracore material will not chip or rust, is easy to clean and never needs painting.

Duraplus™ material is a polymer specially engineered to provide enhanced resilience, which gives improved recovery from impact.

Durapol™ material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2015 test procedure. Durapol material will not chip or rust, is easy to clean and never needs painting.

Duratec™ material has been specifically created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.

Ecoboard™ material is manufactured using a combination of virgin polymer and post consumer plastic waste to create a very robust and strong panel. Ecoboard™ material will not chip or rust, is easy to clean and never needs painting.

Enviropol™ material is manufactured predominantly from post-consumer plastics. By balancing these uncontaminated recycled waste materials, the result is a remarkably versatile product with many applications and benefits. Enviropol material will not chip or rust, is easy to clean and never needs painting.

Everwood™ material is a realistic timber grain polymer, which requires minimal maintenance. Everwood material is vandal and weather resistant, will not rot, warp or crack.

Vandalex™ material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised finish will not rust, is easy to clean and never needs painting.

All Glasdon products manufactured from Durapol™ material, Duraplus™ material, Duracore™ material, Enviropol™ material, Vandalex™ material and Stainless steel can be recycled at the end of their service life.

Personalisation & Branding

Step 1. Choose from a wide range of products and personalisation options including:

Litter Bins & Recycling Bins - Branding, corporate colour schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Our experienced sales team will advise you on the personalisation options of your chosen product.

We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 2. Selecting Standard Options

Many of our products offer standard graphics and poster kits to choose from at the point of ordering. Simply select from the drop down menu the option you require on our website or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing graphic colours and waste streams or to include an element of branding, or perhaps you would like to create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualisation Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalisation, of which you're able to review and make changes to if required. This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. So when you are completely happy with the visual and have agreed any of the additional production costs, we will finalise and deliver your personalised order.

Hood Mounted Circular Ashtrays

(A)*

(B) Universal Ashtray*

Gold or Gun Metal Grey Colour

(C) 3L Ashtray*

Gun Metal Grey Colour

(D) Hood Mounted Square Ashtray*
(Brunel & Invicta only)

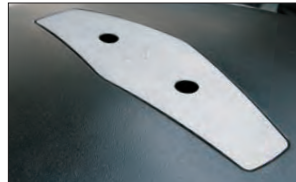

Gold or Gun Metal Grey Colour

(E) Hood Mounted Ashtray*
(Gemini only)

(F) Hood Mounted Diamond Ashtray
(Nexus 200 only)

Gold or Gun Metal Grey Colour

(G) Hood Mounted Rectangular Ashtray

FIREXPIRE

FIRE SAFETY DEVICE

- STAGE 1**
A burning match is carelessly discarded into a litter bin.
- STAGE 2**
The fire takes hold.
- STAGE 3**
In under a minute, the fire extinguishing plate drops onto the liner.
- STAGE 4**
The fire is contained.

An optional extra on Glasdon hooded litter bins, FireXpire™ device is a fire extinguishing plate fitted within the bin top. Should a fire break out inside the bin, a special replaceable, heat responsive device releases the plate which then seals off the mouth of the liner and snuffs out the fire through oxygen starvation. Replacement of the heat responsive device using only a screwdriver resets FireXpire device on site.

(FireXpire is an effective low cost auxiliary device and must never replace primary fire prevention measures. Obstructions preventing the plate from dropping may adversely affect the function of the unit and as many FireXpire devices are used in unsupervised locations, regular inspection and immediate replacement of any damaged or distorted components is essential.)

Glasdon FireSafe™ Device

Is an automatic fire suppression device fitted within the hood of the bin. Should a fire break out inside the bin the device is activated. Glasdon FireSafe is an effective low cost auxiliary device and must never replace primary fire prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

Litter Bin Capacities

The majority of litter bins featured in this catalogue specify two capacities. The 'Bin Volume' is the total capacity the bin liner will hold with the contents measured heaped. The 'Liner Capacity' is the capacity the bin liner will hold with the contents measured flat.

SITING OF NEXUS 360, MODUS & VISAGE

*For the Nexus 360, Modus and Visage, we recommend that a risk assessment is undertaken to identify an appropriate location for your waste collection units. In order to reduce risk, some organisations decide to place the units a minimum of 5 metres away from buildings. Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit. You may also wish to consider installing a Glasdon FireSafe on the Nexus 360 and Modus.
