Design Process

From ideas ... to real world solutions

New product development has been a defining element throughout our history.

The nature of our products is such that they must be designed to resist the numerous challenges faced within the urban landscape.

We continuously enhance our product range and pave the way in the market by introducing unique products.

Working together with our innovative design team, we want to provide real world solutions, tailored to meeting your needs.

Visit our website
www.glasdon.com

Indoor Recycling Bins

Glasdon UK is a market leader in the design and manufacture of effective recycling solutions. We offer a wide range of recycling bins in a variety of capacities, materials and styles to suit the needs of your business.

Our range of indoor recycling bins are designed to help you create the perfect recycling program whatever the location. Our bright coloured apertures and graphics help in reducing waste contamination and encourage recycling.

Nexus® Evolution Recycling Bin

DESIGN FEATURES

- Available in a 160 litre capacity in duo (80/80L), trio (80/40/40L) & quad (40/40/40/40L) models.
- Manufactured using Durapol® material.
- Dedicated aperture panels can be fitted in any configuration*.
- Colour coded aperture panels and graphics.
- Pivoting lid with lid stay.
- Individual waste stream bungee sack retention system.
- Narrow footprint.
- Dual sided unit.

* Exceptions apply for confidential paper aperture and cup & liquid aperture. Contact our sales team for more information.

OPTIONAL EXTRAS

- Lock kits (included as standard with confidential paper aperture).
- Wheel kit with two wheels and handle.
- Sign kit.
- Divider kit (included as standard with confidential paper aperture and cup & liquid aperture).
- Aperture connector kit.
- Choice of ground fixing options.
- Personalisation.

Nexus® 30 Recycling Bin

DESIGN FEATURES

- Moulded-in sack retention system.
- Key-lock (confidential paper unit only, available as an optional extra on all other models).
- Standard graphic options.
- C-Thru Nexus 30 Battery Bin model available.
- Nexus 30 Deluxe model available.

OPTIONAL EXTRAS

- Key-lock.
- Open-topped aperture with flip lid.
- Pivoting lid.
- A4 sign kit.
- Handle.
- Wall mounting kit.

MATERIALS

Bin body and lid: Duratec™ material

SPECIFICATIONS

Height: 626mm
Width: 335mm
Depth: 308mm
Capacity: 30 litres
Amount of A4 paper: 6kg
Amount of 330ml cans: 35
Amount of 500ml plastic bottles: 25
Weight: 2.8kg

FEATURES

Moulded-in Sack Retention System
Ensures the sack remains secure and neat within the bin body.

OPTIONAL EXTRAS

Wall Mounting Kit
Permanent and lift-off wall mounting kits are available.

Handle
Enables the operator to lift the entire bin and decant waste for ease of use and speed of emptying.

Sign Kit
See below for the different waste streams available.

VARIATIONS

Deluxe Model
The stylish Nexus 30 Deluxe model has a metallic silver finish, which will enhance prestigious office environments, meeting rooms and reception areas.

C-Thru Nexus® 30 Battery Bin
C-Thru Nexus 30 Battery Bin is a small capacity unit with a clear body, which makes it ideal for collecting batteries. The unit is supplied with a Battery Weight Warning Graphic adhered to both sides of the bin body to indicate when the bin weighs approximately 25kg, so the operator can empty the unit safely. A handle is also supplied to the back of the bin to help decant the batteries when the bin needs emptying.

Nexus® 50 Recycling Bin

DESIGN FEATURES

- Sleek, contemporary design.
- Complement any environment, helping to encourage the efficient collection and segregation of recyclable waste.
- Sack retention system.
- Removable door.
- Key-lock (confidential paper unit only, available as an optional extra on all other models).
- Non marking Durapol® material feet.
- Standard graphic options.

OPTIONAL EXTRAS

- Key-lock (locks can be retro-fitted).
- Post mounted sign kit.
- Wall mounting sign kit.
- A4 moulded portrait sign kit.
- Rear pod.
- Waste flap kit.
- Castors.
- Nexus 50 cup bank model available.
- Glasdon Recycling Stand.
- Re-usable woven polypropylene sack.
- Multi-bin connector kit (link up to 5 bins).

MATERIALS

Bin body and door: Duratec™ material (contains recycled material)
Sack retention system: Durapol material

SPECIFICATIONS

Height: 680mm
Width: 295mm
Depth: 510mm
Capacity: 50 litres
Weight: 4.2kg

FEATURES

Not like this

Neatly like this

Holds 18kg of Waste Paper

The compact units have a deceptively large 50 litre capacity. The confidential and paper units have an aperture which conceals the contents and allows paper to be stacked as it is placed in the bin. This enables the bin to hold up to 18kg of waste paper!

The rectangular shape of the bin and sloped aperture allows over 3000 sheets of paper to fit neatly into Nexus 50.

Easy to Empty, Easy to Clean

Nexus 50 has a front-opening, removable door. This allows easy access to the contents and reduces manual handling problems during emptying as minimal lifting is required. The unit is fitted with a neat sack retention system, which accepts various sizes of sack from 14" to 18" diameter (356mm to 458mm diameter), to cater for different requirements.

Nexus 50 with Sign Kits

Three sign kit options are available for the Nexus 50 – a post mounted sign, a A4 moulded portrait sign, which both attach to Nexus 50 and a wall mounting sign.

The sign kits help create a clearly identifiable recycling point in any location, as well as providing an easy and effective way of personalising the product. Sign designs can be specified at point of order.

OPTIONAL EXTRAS

Waste Flap Kit

A Waste Flap Kit is available as an optional extra, to hide any unsightly waste and help contain any odours from within the bin. (Only available in Grey)

Rear Pods and Cup Bank

Rear Pods and Cup Bank are available for the Nexus 50. This can be either an 8ltr reservoir for the collection of waste liquids from cans or bottles before depositing in the unit, or an additional 8ltr recycling bin for items such as bottle tops or any other small items.

Nexus® 100 Recycling Bin

DESIGN FEATURES

- Sack retention system.
- Pivoting lid and lid stay.
- Key-lock (confidential paper unit only, available as an optional extra on all other models).
- Heavy duty wheels on door.
- Drip tray.
- Non marking Durapol® material feet.
- Standard graphic options.

OPTIONAL EXTRAS

- Key-lock (locks can be retro-fitted).
- Metal liner.
- Sign kit.
- Rear wheels (x 2).
- Combined folding sign and wheel kit.
- Reservoir side pod or waste bin side pod kit.
- Side pod flap lid kit.
- General waste flap kit.
- Multi bin connector kit (link up to 5 bins).
- Oxo-degradable sacks.
- Re-usable woven polypropylene sack.
- Glasdon Recycling Stand.
- Aperture flip lid kit.

MATERIALS

Bin body, door, lid and apertures: Duratec™ material (contains recycled material)
Sack retention system: Durapol material

SPECIFICATIONS

Height: 1007mm
Width: 544mm (width c/w one side pod: 677mm, width c/w two side pods: 810mm)
Depth: 397mm
Capacity: 100 litres
Amount of A4 paper: 30kg
Amount of 330ml cans: 130
Amount of 500ml plastic bottles: 95
Weight: 12kg

FEATURES

Sack Retention System

The sack retention band can be lifted up to allow light waste such as cans or plastic bottles to be removed without removing the door.

Secure Key-Lock for Confidential Paper Unit

A keyed push lock is situated at the front of the unit for ease of access. (Can be provided as an optional extra on all other models).

Wheels are attached to the base of the door to aid easy emptying.

Easy and Safe to Empty

Lift the lid to its open position, then pivot open the door. For lighter loads such as cans and plastic bottles simply lift the sack retention band up and remove the sack (as shown). For heavier waste such as paper, the door can be removed from the unit and tilted onto the wheels attached to the base, ready for transporting the heavy waste a short distance to a collection area. With the door away from the unit, the sack can then be removed with minimal lifting.

Drip Tray

Positioned in the base of the door, the drip tray will collect any waste liquid, which is deposited in the unit, preventing it from spilling out on to the floor.

The drip tray can be easily removed for emptying and cleaning.

OPTIONAL EXTRAS

Rear Wheels

Nexus 100 can be supplied with two rear wheels, making the whole unit easy to manoeuvre.

OPTIONAL EXTRAS

Side Pods

An additional 8ltr side pod is available on one or both sides of the Nexus 100 unit. This can be either an 8ltr reservoir for the collection of waste liquids from cans or bottles before depositing in the unit, an 8ltr waste pod for the collection of small non-recyclable items, or an additional recycling bin for items such as batteries or bottle tops.

Open-topped side pod lid

Liquids Funnel side pod lid

Side pod stickers

Other options are available upon request.

Side Pod Flip-lid

Available in Black.

Flip-lid sticker, other options are available

Sign Kit

A sign kit is available, which is fitted to the rear of the unit to provide additional signage at eye level and will help promote the recycling message. The clear sign front pivots to allow either a standard Glasdon sign or your own A4 sign to be inserted and replaced when required.

A combined folding sign and wheel kit is available to allow Nexus 100 to be easily moved.

Eco Nexus® Recycling Bin

DESIGN FEATURES

- Available as a 60 litre or 85 litre capacity unit.
- Range of recycling lids available with a choice of colour/aperture options.
- Handles on the lid and bin body to enable easy removal of the lid for emptying the bin.
- Integral sack retention system secures the sack in position neatly within the bin. The lid clamps the sack in position and hides the sack, creating a tidy finish.
- Key-lock (confidential paper unit only, available as an optional extra on all other models).
- Standard graphic options available for the front or the side of the bin.
- Eco Nexus cup bank model available.

OPTIONAL EXTRAS

- A4 sign kit.
- Key-lock.
- Food/general waste flip lid.
- Wheel kit.
- Glasdon Recycling Stand.
- Oxo-degradable sacks.

Capacity:	60 litres	85 litres
Weight:	3.9kg	4.5kg

FEATURES

Eco Nexus recycling bins are available as a 60 litre or 85 litre capacity unit. The units take up minimal space, which allows flexibility of siting. Vibrant coloured lids with a choice of aperture options are available to encourage correct recycling usage.

85 Litre

60 Litre

Flip Lid

The flip lid hides any unsightly waste and helps to contain any odours from within the bin. The lid is quick, easy and hygienic to use.

OPTIONAL EXTRAS

Wheel Kit

The snap-fit wheel kit is quick and easy for the user to assemble, making the bin easy to manoeuvre even when full.

A4 Sign Kit

Versatile A4 Sign Kit can be positioned on the back or the side of the bin, depending on the positioning of the bin. The Sign Kit helps to create a clearly identifiable recycling point in any location, as well as providing an easy and effective way of personalising the products. Sign designs can be specified at point of order.

Glasdon® Recycling Stand

DESIGN FEATURES

- Sites two to three indoor recycling bins.
- Steel frame with Armortec® coating.
- Lightweight and easy to manoeuvre.
- Simple and quick assembly.
- Large sign face helps create clearly identifiable graphics.
- Extremely robust Ecoboard™ material base allows for permanent fixing of recycling bins.
- Rubber feet raise the Recycling Stand off the ground to protect the framework and flooring.
- Any standard graphic option available.

OPTIONAL EXTRAS

- Frame extension inserts – to make the station suitable for taller bins.

C-Thru™ 180 Trio Recycling Bin

DESIGN FEATURES

- Trio recycling hood.
- Two models are available, an open top model and a hooded top model.
- Choice of apertures for the collection of newspapers and magazines, plastic bottles, cans or general waste.
- Clear graphics provide easily identifiable waste streams.
- Keyed-lock prevents unauthorised removal of hood.
- Unique sack retention system supports three sacks within the bin, and allows flexible waste stream capacities to maximise bin volume.

- Sack retention system is removable for easy emptying.
- The trio hood features zinc galvanised steel dividers, to prevent cross-contamination of waste.

Cup Recycling Bins

For disposable cup recycling to become a reality, our used cups need to be collected systematically in bulk - this is where stream specific recycling bins come in. By offering a cup recycling bin in areas where coffee is likely to be consumed - whether that's coffee shops, fast food restaurants or offices - the likelihood of tossing used cups in any old bin is reduced. A dedicated recycling container for disposable cups will ensure that this waste does not contaminate other recyclable streams and it will also make bulk collection easier.

Eco Nexus® Cup Recycling Station

DESIGN FEATURES

- Moulded aperture with four separate waste streams.
- Two integrated cup tubes can stack up to 120 used cups.
- 8 litre removable waste liquid reservoir.
- Made from strong and long lasting Durapol® material.
- Internal cradle enables a quick and easy removal and insertion of stacking tubes and reservoir.
- Hinged lid aids easy emptying.
- Standard graphic options.

OPTIONAL EXTRAS

- Range of optional standard aperture and body graphics.
- Foamex sign kit available with standard and non standard graphics through personalisation service.
- Alternative aperture and body graphics available through personalisation service.
- Keyed lock available.
- Wheel kit which makes the bin easy to manoeuvre even when full.

Envoy™ Cup Recycling Bin

DESIGN FEATURES

- 90 litre liquid reservoir.
- A cup stacking liner enables up to 700 cups to be neatly stacked.
- Standard graphic options.

OPTIONAL EXTRAS

- Personalisation.
- A4 sign kit.

MATERIALS

Bin body and lid: Durapol® material
Reservoir: Translucent Durapol material

SPECIFICATIONS

Height: 870mm
Width: 540mm
Depth: 375mm
Capacity: 110 litres
Reservoir Capacity: 9 litres
Weight (bank with empty reservoir): 8.2kg
Weight (bank with full reservoir): 17.2kg

FEATURES

Easy to Use – How the cup bank works

The waste liquid is poured into the integral funnel, which runs directly into the reservoir unit contained within the cup bin. The empty plastic cups can then be dropped into one of the five cup disposal apertures. Envoy Cup Bin is at a user-friendly height therefore minimal bending/stooping is required. The easy to use apertures make the cup bin a clean and easy way to collect liquid and cups. Envoy Cup Bin can accommodate more than one user at a time.

Easy to Empty

Envoy Cup Bin with cup stacking liner has a very easy emptying procedure which can be carried out by one person.

Remove the lid and lift the plastic sack out of the cup bin.

Remove the reservoir unit located at the back of the cup bin for emptying. Re-position the reservoir unit against the back wall of the cup bin.

Place a new sack in the cup bin. The sack fits inside the liner and wraps over the top, within the bank. Replace the lid. The aperture holes help to hold the sack in place.

Nexus® 200 Recycling Bin

DESIGN FEATURES

- Supplied with 2 x 100 litre zinc-coated steel liners.
- Slimline design.
- Robust construction - double skinned body and doors.
- Features two 3-point interlocking slam shut doors.
- Colour-coded apertures and clear graphics.
- Curved hood prevents littering.
- Single keyed twin door opening system.
- Extended aperture ledges help to ensure litter enters the liner.
- Anti-flyposting finish.
- Includes four A3 poster frames with Recycle Now graphics.

OPTIONAL EXTRAS

- Ashtray in gun metal grey or gold colour.
- 2 x Glasdon FireSafe™ automatic suppression device.
- 2 x 100 litre moulded plastic liner.
- Aperture blanking panel.
- Sack retention.
- Base tray.
- Choice of ground fixing options.
- Oxo-degradable bags (100 pieces).
- Hood graphics.

MATERIALS

Bin body and door: Durapol® material

SPECIFICATIONS

Height: 1177mm
 Width: 1169mm
 Depth: 591mm
 Weight c/w steel liners: 51kg
 Weight c/w Durapol material liners: 46kg
 Liner capacity: 2 x 100 litres

FEATURES

Twin Door Opening System

With a twin door opening system and separate body compartments, Nexus 200 allows easy and quick access to both liners whilst minimising cross contamination between them.

Extended Aperture Ledge

Minimises cleaning inside the bin as the extended aperture ledge ensures that litter will fall directly into the liner.

Secure 3-point Locking System

The unique lift and lock mechanism engages the door with the bin body at three separate points, to provide a highly secure, vandal-resistant locking system. The door rises and self-returns to the locked position with a simple slam lock operation.

OPTIONAL EXTRAS

Ashtray

Cigarette ashtray with a 5ltr liner in Gun Metal Grey or Gold colour.

Aperture Blanking Panel

Ideal for use when the bin needs to be sealed from public use temporarily.

Sack Retention

An elastic sack retention belt securely holds the sack inside the liner.

Base Tray

Provides a smooth base for easy cleaning.

Glasdon FireSafe™ Automatic Suppression Device (600g)

Glasdon FireSafe automatic fire suppression device is fitted within the hood of the bin. Should a fire break out inside the bin the device is activated. Glasdon FireSafe is an effective low cost auxiliary device and must never replace primary fire prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

Nexus® City 240 & Nexus® City 140 Food Waste Recycling Bins

DESIGN FEATURES

- Houses a 240 or 140 litre wheeled container.
- Manufactured from robust Durapol® material.
- Curved sloping hood prevents waste being left on top of the bin.
- Vandal and weather resistant hood.
- Food waste graphics and aperture flap.
- Smooth surfaces, both internally and externally for ease of cleaning.
- Double skinned 5-point interlocking slam shut door.
- Base ramp aids insertion/removal of the wheeled container.
- Wheeled container location points ensure the container is sited correctly (Nexus City 240 only).

OPTIONAL EXTRAS

- Interchangeable A3 poster frame kit.
- Choice of ground fixings.
- Internal ballast.
- Glasdon FireSafe™ automatic suppression device (Nexus City 240 only).

MATERIALS

Bin body and door: Durapol material

SPECIFICATIONS

	Nexus City 240	Nexus City 140
Height:	1399mm	1365mm
Width:	807mm	735mm
Depth:	900mm	735mm
Housing Weight:	32kg	25kg
Housing and Ballast Weight:	51kg	65kg
Liner Capacity:	240 litres	140 litres

FEATURES

Easy to use 5-point interlocking door.

Nexus City 240 houses a 240 or 140 litre wheeled container.

Nexus City 240 in Anthracite Grey and Nexus City 140 in Black sited back-to-back to show difference in footprint.

The A3 poster frame kit, aperture flap and recessed graphics can be easily personalised with your local authority or organisation name, logo or crest as an optional extra.

Nexus® City 240 & Nexus® City 140 Recycling Bins

DESIGN FEATURES

- Houses a 240 or 140 litre wheeled container.
- Manufactured from robust Durapol® material.
- Curved sloping hood prevents waste being left on top of the bin.
- Vandal and weather resistant hood.
- Graphics and dedicated apertures encourage correct usage.
- Smooth surfaces, both internally and externally for ease of cleaning.
- Double skinned 5-point interlocking slam shut door.
- Base ramp aids insertion/removal of the wheeled container.
- Wheeled container location points ensure the container is sited correctly (Nexus City 240 only).

OPTIONAL EXTRAS

- Interchangeable A3 poster frame kit.
- Choice of ground fixings.
- Internal ballast.
- Glasdon FireSafe™ automatic suppression device (Nexus City 240 only).

MATERIALS

Bin body, door and hood: Durapol material

SPECIFICATIONS

	Nexus City 240	Nexus City 140
Height:	1585mm	1565mm
Width:	805mm	735mm
Depth:	900mm	720mm
Housing Weight:	32kg	25kg

Nexus® 360 Recycling Bin

DESIGN FEATURES

- Houses a 240 litre or 360 litre wheeled container.
- Double skinned 5-point interlocking slam shut door.
- Curved sloping body and hood prevents littering.
- Integrally moulded ridges deter fly-posting and graffiti.
- Available with colour-coded apertures and clear graphics.
- Extended aperture ledge helps to ensure litter enters the liner.
- Base ramp aids insertion/removal of the wheeled container.
- Includes an A3 poster frame with graphics.

OPTIONAL EXTRAS

- Glasdon FireSafe™ automatic suppression device.
- Choice of ground fixing options.
- Side connecting kit (2 bins).

MATERIALS

Bin body and door: Durapol® material

SPECIFICATIONS

Height: 1512mm
Width: 835mm
Depth: 1071mm
Weight: 50kg

FEATURES

Secure 5-point Locking System

The unique lift and lock mechanism engages the door with the bin body at five separate points, to provide a highly secure, vandal-resistant locking system. The door rises and self-returns to the locked position with a simple slam lock operation.

Aperture Shelf

Minimises cleaning inside the bin as the aperture shelf ensures that litter will fall directly in to the liner.

Double Skinned Door & Concealed Knuckle Hinge

The strong and robust double skinned door has concealed hinges for added durability.

OPTIONAL EXTRAS

Glasdon FireSafe™ Automatic Suppression Device (1kg)

Glasdon FireSafe automatic fire suppression device is fitted within the hood of the bin. Should a fire break out inside the bin the device is activated. Glasdon FireSafe is an effective low cost auxiliary device and must never replace primary fire prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

Orbis with free standing post

Orbis™ Sack Holder

DESIGN FEATURES

- Recycle Now graphic options.
- Choice of co-ordinating lid colours (can fit any colour body).
- Strong and robust moulding.
- Weather and vandal resistant – does not corrode.
- Neat, tidy and strong sack retention system.
- Robust two stop knuckle hinge.
- Available with or without lid.
- Anti-flyposting and easy graffiti removal finish.
- Fixing points for wall or post mounting.

OPTIONAL EXTRAS

- Surface mounting post.
- Free-standing post.
- Extended post.
- Mobile base kit.
- Mounting bracket (2, 3 or 4 units).
- Rail mounting bracket.
- Polycarbonate cage.
- Steel mesh cage with Armortec® coating for wall or post mounting.
- Sack retention bungee cord.
- Choice of fixing options.
- External ballast for free standing unit.
- Extended beach post kit.

MATERIALS

Body and lid: Durapol® material

SPECIFICATIONS

Height: (with lid): 184mm
Height: (without lid): 135mm
Overall depth: 456mm
Capacity: 110 litres (depending on sack size)
Diameter: 412mm

OPTIONAL EXTRAS

Mounting brackets for two, three or four units.

Orbis with free standing post, ideal for indoor environments.

Armortec coated steel mesh cage is available if required.

Transparent polycarbonate cage is also available.

A4 Sign Kit

Versatile A4 Sign Kit can be single or double sided. The Sign Kit helps to create a clearly identifiable recycling point in any location, as well as providing an easy and effective way of personalising the products.

Glasdon High Performance Materials, Personalisation & Fixing Options Guide

Add a unique touch to your Glasdon order with our Personalisation and Branding Service. From adding your organisation's logo or crest, right through to full graphic wraparounds, we have the in-house expertise to help you achieve the impact you require.

Glasdon High Performance Materials

Glasdon products are manufactured from high performance materials and undergo stringent quality checks to ensure durability and best value. We have accreditation with ISO 9001:2015, underlining our commitment to provide quality products.

Throughout this brochure reference is made to the following materials:

Armortec® corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.

Duraplene™ material comprises a range of polymers which have been formulated for internal applications offering reliability and low maintenance.

Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2015 test procedure. Durapol material will not chip or rust, is easy to clean and never needs painting.

Duratec™ material has been specifically created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.

Ecoboard™ material is manufactured using a combination of virgin polymer and post consumer plastic waste to create a very robust and strong panel. Ecoboard material will not chip or rust, is easy to clean and never needs painting.

Vandalex® material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised finish will not rust, is easy to clean and never needs painting.

All Glasdon products manufactured from Durapol material, Vandalex material and Stainless steel can be recycled at the end of their service life.

Personalisation & Branding

Step 1. Choose from a wide range of products and personalisation options including:

Recycling Bins - Branding, corporate colour schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Our experienced sales team will advise you on the personalisation options of your chosen product.

We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 2. Selecting Standard Options

Many of our products offer standard graphics and poster kits to choose from at the point of ordering. Simply select from the drop down menu the option you require on our website or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing graphic colours and waste streams or to include an element of branding, or perhaps you would like to create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualisation Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalisation, of which you're able to review and make changes to if required. This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. So when you are completely happy with the visual and have agreed any of the additional production costs, we will finalise and deliver your personalised order.

Glasdon Ground-Lock system is a versatile fixing system for securing hooded, open-topped and post-mounted litter bins in 'soft' or unsurfaced ground. Quick and easy to install, without excavating or concreting, the system has a unique 'remove and resite' locking feature, so bins can be relocated. Ground-Lock system is also vandal-resistant, the secure siting keeps waste in its place. (Ground-Lock system fixing tool required. One tool supplied free with every 3 Ground-Lock systems ordered.) Please see above which bins require a reinforcing plinth with the Ground-Lock option.
